# HOMES FOR HAITI

HELP INVEST IN  
HAITI'S FUTURE.

# HOMES FOR HAITI

## QUICK FACTS

- Houses are 514.5 ft<sup>2</sup> = 47.89 m<sup>2</sup>
- Built with painted galvanized steel
- Urethane foam insulation
- Materials are guaranteed for 20 years
- Light-weight but sturdy

## WHO WE ARE

### VANCOR

- 50 years experience in all facets of construction
- Over 12 years experience installing insulated panels in small and large scale applications in North America
- Looking to use construction experience to assist Haitians in need

### EMCC Global Initiatives

- EMCC has a history partnering with nationals in Relief & Development work
- EMCC – Global Initiatives is partnering with VANCOR to build houses to respond to the intermediate needs for post earthquake need in Haiti

## VANCOR HOMES

### Housing Specs

- 26 gauge painted galvanized steel panels with urethane core
- Panels have R value of 7.5 per inch = R20
- Thermopane windows with vinyl frame
- Outside Steel insulated door
- Interior masonite doors

### Benefits

- Easily assembled – 4-5 man crew can complete house in 1 day
- Insulation value makes it ideal for warm climate countries
- Maintenance free
- Sanitary
- Termite resistant

## PROJECT PROPOSAL

### Phase I

- Build 1,000 homes in rural Haiti
  - Cost per house: \$8,000 + shipping costs
- Train Haitian nationals for assembly
- Manufacture in Canada and ship to Haiti

### Phase II

- Establish a manufacturing plant in Haiti to produce panels
- Supply Haiti with a safe housing option on a long term basis
- Create jobs for Haitians in the following areas:

- Manufacturing
- Transportation
- Construction
- Management

**A RAPID BUT PERMANENT HOUSING SOLUTION.**
