

Doing God's Justice

Partner with us to bring Godly justice for the disadvantaged of our world. Give generously on R&D Sunday, Oct 16, 2011.

A New Beginning

It started as a growl deep in the earth. The ceiling and walls began to crack and crumble before their eyes. Anyol and his wife frantically grabbed their five children and fled into the street. Dumbfounded, they watched their home, their belongings, and their lives crumble into dust.

Soon they learned there would be no community support. Desperate, the destitute family fanned out to gather sticks, plastic, cloth, and even grass. Their makeshift, dilapidated shelter would surely fall flat with the first good rain or wind.

Then the EMCC arrived. One look, and the Anyol family was chosen for help from the Homes for Haiti Fund. The smile on Madame Anyol's face grew larger and larger as the trim, solid house neared completion. Tears streamed down Anyol's face as he was handed the keys.

Mark Pratt, from Cobourg, ON and Keith Burke from Three Hills, AB saw the look on the family's faces, and were moved by their tears. Every ounce of hard work in the merciless heat was more than worth it.
See before and after photos at: <http://www.emcc.ca/following/our-stories.aspx?p=168>.

You, too, can have a part in changing the lives of people and communities. Help us help more people get back on the road to being able to provide for their loved ones. Help us provide justice and dignity for the disadvantaged.

The following 3 projects will receive matching dollar for dollar donations up to the first \$150,000.

• Housing Health Clinic's Medical Staff – Haiti - #114

Medical personnel at The Gens de Nantes (GDN) clinic need a place to live. This Christian clinic provides the only easily accessible healthcare for this northern community. A government order requires new standards for medical personnel. Our project will build a house with three bedrooms and washrooms and a common kitchen and sitting area. Cost for facility and sanitation - \$57,000.

• Launching a Vocational Training Centre – Haiti - #111

Provide hope for young men & women as we train welders and carpenters and help students establish local businesses. A crumbling facility at the AEM Compound in La Jeune needs to be rebuilt to house this training centre. Cost for renovations and school start up expenses - \$72,000.

• **Building Homes for Haiti - #138**

Help earthquake survivors start over. We have already erected nine homes in the La Jeune area of Haiti, with 25 more scheduled for early 2012. Each home costs approximately \$11,000 dollars. See the EMCC website for more about the homes. We believe the Lord would have us build 30 more by the end of 2012. Cost - \$330,000.

Your Sacrificial Support Brings the Gospel

Along with practical help, our teams find plenty of opportunities to share the gospel as they interact with others. Go to the EMCC website to read:

Changing Lives, One family at a time in El Salvador – the story of Felix, a recipient of a home in El Salvador who received a new home, and a new life in Jesus.

<http://www.emcc.ca/following/our-stories.aspx?p=167>

Other Projects to Support - EMCC Relief and Development has several more projects that need your prayers and financial support. Here is the list, with Project Numbers.

- **EMCC – R&D General Fund** (funds to be used where most needed) - #100
- **Ethiopia** (CFGF Food Security) - #142
- **Disaster Relief** (responding to calamities around the world) - #102
- **Canadian Foodgrains Bank** – (food aid & food security) - #140
- **El Salvador** – (homes in Cabanas) - #118
- **Haiti** – (Savanne Kajou - Clean Drinking Water/Sanitation) - #112
- **Haiti** – Lydia Centres - (entrepreneurial opportunities for women) - #113
- **Medical Kits/PTP's** (Specifically designed medical kits for use at health clinics) - #135

How Can I Support an EMCC R&D Project?

- Choose your project(s)
- Make your cheque payable to: “EMCC”
- Include the project # on the cheque memo line
- Or, go to <http://www.emcc.ca/donate.aspx>, choose your project and donate online.

Thank you for your compassionate support of these projects on EMCC R&D Sunday, Oct 16, or at any time throughout 2011-2012.

Lou Geense, Director of EMCC Global Initiatives
